<<Hiring>> Postdoctoral Researcher Position in the Dr. Chin-Mei Lee's lab at Institute of Plant Biology, National Taiwan University

We are looking for a postdoctoral researcher to join our group. The candidate will work on research topic related to “proteasome-mediated protein degradation in regulation of *Arabidopsis* circadian clock.” An eligible candidate should hold a PhD degree with training in plant-related area or Molecular Biology. Research experiences in plant molecular biology, plant physiology or high-throughput yeast screens are desirable. Additionally, a first or corresponding author publication within five years is mandatory. The position will be available until filled.

Please send a PDF file including cv, representative publication (first or corresponding authorship), and contact information of two references to Dr. Chin-Mei Lee (chinmeilee@ntu.edu.tw) for application.
